

Five Clover Films presents

cadence

In a reality where human contact has become devalued, Andrea finds herself caught within a never-ending cycle of helping others reawaken long-forgotten feelings for each other. Yet the ritual has grown repetitive for her, as she questions whether or not it's too late to make an actual difference.

How will the members of Andrea's group respond to her growing disillusionment, which threatens to shatter the pace of their carefully orchestrated emotional resurgence?

Starring Sonja Ribicki, Yanni Kuznia, Mary Gibbs, Dave Durham, Eric Paul Porzadek, Vincent Rasnick and Stacey Arnold.

ABOUT THE DIRECTOR & PRODUCER

Director Mike Madigan of Five Clover Films & Producer Matthew Peach of TriOmega Productions started making films together two years ago in 2006. Since then they have released many short films onto the worldwide film festival circuit. Their films move audiences with their actor-driven memorable storylines and beautiful camera work. Their love for the art of filmmaking has helped them to build a solid footing in the independent film scene in Detroit. Committed to growing the film industry in Michigan, the duo also wrapped a television pilot in October. In 2008, they are launching a third production company with partner Rob Gulley, M-1 Studios in Royal Oak, which will focus on new digital advertising techniques.
